

Open Source Software used in the product SIP4_China_7UT686_V4.00

The product contains, among other things, Open Source Software, as defined below, developed by third parties. The Open Source Software used in the product SIP4_China_7UT686_V4.00 and the license agreements concerning this software are available in this document. These Open Source Software files are protected by copyright.

Your compliance with those license conditions will entitle you to use the Open Source Software as foreseen in the relevant license. In the event of conflicts between Siemens license conditions and the Open Source Software license conditions, the Open Source Software conditions shall prevail with respect to the Open Source Software portions of the software. The Open Source Software is licensed royalty-free.

If programs contained in this product are licensed under GNU General Public License (GPL), GNU Lesser General Public License (LGPL) or any other Open Source Software license, which requires that source code be made available and this software is not already delivered in source code form together with the product, then you can request the corresponding source code from SIEMENS by paying a fee of 5 Euro for the physical act of transferring the copy. Please send your specific request, together with a receipt indicating the date of purchase, within three years of your purchase, together with the software release number of the product to be found at readme file on the product CD to:

Siemens AG

Liability of Open Source Software:

We are liable for the Product including the Open Source Software contained in it pursuant to the license conditions applicable to the Product. Any liability for the Open Source Software beyond the program flow intended for the Product is explicitly excluded. Furthermore any liability for defects resulting from modifications to the Open Source Software by you or third parties is excluded. We do not provide any technical support for the Product if it has been modified.
